

DOG BITES AND CLAIMS RISING

Please find below the link for a group that tracks dog bites and the amount of claims. Very interesting information. You should be able to use this to send out to owners who may be resistant to get legal counsel involved when situations arise. This is serious and directors need to deal with all issues vs. be liable for millions in claims for a hurt person.

Here is the link: <http://www.iii.org/article/infographic-dog-bite-liability-claims-2016>

Interesting that Nevada shows 126 claims totaling \$4,400,000 in awards. Help your directors and owners take this seriously as dog bites are on the rise nationally.
